SUMMARY:

Experienced Full-Stack Developer with a strong background in designing, developing, and maintaining web applications using a diverse range of programming languages and frameworks. Proficient in optimizing database schemas, ensuring cross-platform responsiveness, and integrating mobile technologies to enhance user experiences. Adept at utilizing version control systems and debugging tools to deliver high-quality solutions. Committed to continuous learning and growth in the ever-evolving tech landscape.

PROFESSIONAL EXPERIENCE:

Full-Stack Developer - February 2022 – Present
Codendot | Tripoli, Al Mina

- Developed and maintained front-end/back-end web applications using a variety of languages and frameworks, including **HTML, JavaScript, PHP, YII2, Magento and jQuery**.
- Utilized **MySQL, Firebase** databases for efficient data storage, retrieval, and schema optimization for performance and scalability.
- Ensured cross-platform optimization and mobile responsiveness **using CSS, SCSS, LESS, Bootstrap5, and Tailwind CSS** for styling.
- Integrated mobile technologies such as **React Native, Android Studio, Flutter, Cordova, Expo, and Framework7** to enhance mobile experiences.
- Employed version control systems like **GitHub and GitLab** for efficient collaboration and version management.
- Monitored and troubleshooted performance issues, utilizing debugging tools, advanced code logic, and tracking network requests.
- Integrated comprehensive work order management, role-based permissions, and team management functionalities based on project requirements to ensure efficient workflows.

Full-stack Developer - January 2020 – June 2022
Freelance | Lebanon

- Wrote well-designed, testable, and efficient code using web development best practices.
- Created basic website layouts and user interfaces, integrating data from various back-end web services and databases.
- Integrated data from various back-end web services and databases, ensuring cross-browser compatibility of new features.
- Created and maintained software documentation, ensuring clear and up-to-date records.
- Collaborated with web designers to realize visual design intent and ensured responsive design across devices.

- Advocated for automation, Test Driven Development (TDD), Continuous Integration (CI), and Continuous Delivery (CD) to enhance product quality and detect bugs at an early stage.

Project Coordinator - January 2020 – June 2021
Lamar Jewelry | Tripoli, Koura

- Coordinated the implementation and customization of the Odoo point-of-sale system.
- Utilized Odoo functionalities to handle customer service, inquiries, and sales transactions.
- Conducted inventory management, meticulously organizing products based on item codes within the Odoo system.
- Leveraged Odoo's capabilities to provide clients with comprehensive product information, optimizing the overall customer experience.
- Collaborated closely with the development team to enhance the Odoo point-of-sale module for more efficient sales operations, thereby contributing to the successful achievement of sales targets.

ADDITIONAL SKILLS AND TRAITS:
- Proficient in debugging using browser inspector tools, code logic, and tracking network requests, with a solid understanding of data using cookies management.
- Studied functional specifications and translated them into technical designs, working within Scaled Agile Framework practices.
- Continuously learning and improving Functional, Technical, and Leadership skills.
- Languages: **Node.js, React.js, Redux, Angular, Next.js, MongoDB, Python, Java.**

CERTIFICATES/ACTIVITIES:
Switching, Routing, and Wireless Essentials - 30 Jun 2021
Cisco Networking Academy
- Fulfilled all the requirements for CCNAv7, Switching, Routing, and Wireless Essentials certification.

Maharat min Google - December 2020
Balamand University
- Received a certificate for Fundamentals in Digital Marketing

EDUCATION:
Bachelor's of Science in Computer Science - January 2019 - January 2022
Lebanese International University (LIU) | Tripoli, Koura
- **GPA 3.69**
